THE MEWES VETS ENVIRONMENTAL SUSTAINABILITY POLICY

Overview:

The Mewes Vets Ltd endeavour to be the leading veterinary group in sustainability in and around the Southeast of England. As the world is changing and throwaway culture is on the rise, we believe we must take responsibility for our actions and our impact on the environment, both directly and indirectly. Therefore it is important to us that we train and engage our team on the importance of sustainability at work.

Scope:

Our policy requirements apply to all Mewes Vets employees, including; locums, students and volunteers, Visitors, suppliers and contractors.

Our commitment:

We at The Mewes Vets aim to be part of a sustainable society, ensuring we uphold our role in the protection of the environment. We commit to:

- Reducing usage of electricity, water, fuel, energy and other resources.
- Improving waste management, reducing the overall waste produced, promoting recycling and usage of materials with lower environmental impact.
- Calculating and reducing anaesthetic gasses.
- Endeavouring to reduce paper usage where electrical documents can be used.
- Promoting and supporting the uptake of sustainable travel.
- Enhancing the practice's social impact.

Compliance:

The Mewes vets will comply with, or exceed our obligations, including taking a proactive approach regarding environmental legislations that affect our business.
